- Minerals
- Plastics

Eliminate Downtime

In dry bulk processing, when a slide gate or diverter fails, your entire production line stops. Unplanned downtime isn't just an inconvenience—it's the ultimate profit killer. The precision of your handling components is the backbone of your operational continuity.

World-Class Technology, Local Expertise

Since June 2025, **Gevasol Ettem Sealing Solutions** has been the official distributor of Vortex Global in Israel. We bring the world's leading solids handling technology directly to your facility, backed by Ettem's trusted engineering expertise and rapid local response.

Why Leading Israeli Manufacturers Choose Vortex

- **Proven Success:** Our solutions are already powering strategic projects across Israel's food, chemical, mineral, and plastic industries.
- **Engineered for Reliability:** Components designed to eliminate bottlenecks and handle the most demanding materials.
- **Global Leadership:** Direct access to the global gold standard in slide gates, diverters, and loading solutions.

**Don't let bulk handling challenges hold you back.
Optimize your line today.**
